The Association of Sustainability Practitioners (ASP) is a diverse, international community of practitioners and facilitators of all ages. ASP exists to connect, challenge and support sustainability practitioners as we learn together how to move from unsustainable to sustainable practices. We are proud to be supporting the inaugural **Humber Eco Fest 2023**, conceived and organised by **Creative and Cultural**. These events are created by ASP Members to support the people of the Humber region and complement your own live events and activities in the area.
